

Project Profile

Triumph Aerospace Structures

Spray Technique Installing Fabric

Project Specifications:

- ◆ Aerospace Structures
Stuart, Florida
- ◆ Multiple Substrates
Metal, Mod Bit, PUF, EPDM
- ◆ 211,000 SF

About the project:

This project was completed by All American Roofing at the Triumph Facility in Stuart, Florida. It has multiple substrates which is perfect for the Acrylabs Systems to tie them all together. Several phases have been completed over the past few years. This phase was just recently completed.

Finish Coat over PUF over Metal

Finish Coat over Base System over Mod Bit

Finish Coat over PUF
