

Product Profile

Patch Kit

About Patch Kit:

Acrylabs Patch Kit consists of 1 gallon of Base Coat, 1 gallon of Finish Coat, a 12" roll of Fabric Reinforcement, a 4" Brush, Shears, and a pair of gloves. This easy to use, all in one kit can resolve many issues and can be used many times on multiple repairs.

Pipe penetrations and curbs are critical areas on a roof and are often prone to leaking. Using the Acrylabs Patch Kit, a newly installed PVC vent pipe was made watertight and sealed to the existing roof.

This asphalt BUR curb suffered from many years of UV degradation

The Acrylabs Patch Kit was the perfect tool for making the repair and creating a watertight curb
